

Event Entry List Files

These files are used to provide the event results for each event and are input to the Nats IT system. Originally they were in CSV (Comma Separated Values) format and now it is supplemented with the files in Excel format.

You can access the event files on the internet by going to the directory they are situated. We will create the entry lists for the next competition day around 6:00pm and put them in the following directory on the internet...

<https://nats.mfnz.org/Admin/Event-Files/>

A screenshot of a web browser displaying the directory index for the path /Admin/Event_Files/. The browser's address bar shows 'modelflyingnz.org/Admin/Event_Files/'. The page title is 'Index of /Admin/Event_Files/'. Below the title is a table with three columns: 'Name', 'Last Modified', and 'Size'. The table contains two entries: 'Parent Directory' with a folder icon and 'EventCode RCA01_Basic IMAC.csv' with a file icon. The 'EventCode RCA01_Basic IMAC.csv' entry shows a last modified date of '2019-12-30 06:06' and a size of '4k'. At the bottom of the page, it says 'Proudly Served by LiteSpeed Web Server at modelflyingnz.org Port 443'.

Name	Last Modified	Size
Parent Directory		
EventCode RCA01_Basic IMAC.csv	2019-12-30 06:06	4k

If you then click on a file, it will attempt to download the file to your device be it a PC, tablet or smartphone. You can then add the results of the competition to the file(s).

This year we have introduced a new format for the entry list files, namely Excel formatted files. Please advise us which file format you prefer, CSV format or XLS format. If you don't advise us, you will get XLS format.

You can use Excel or LibreOffice Calc to add the results to the file (or any Excel clone program).

The columns Score and Placing (in grey above) need to be filled out and the column Comments is available if needed (for relevant comments which will appear in the results. For C/L Classic aerobatics this could be the plane flown (hint hint).

Then save the file as a CSV file or Excel format file and email it to nats@mfz.org.

Now the above covers a typical situation where a user can download the event files, update them and send them back.

If you don't have easy access to the internet, or a pc; you can come to Nats HQ and we can help provide you with a pc to complete the entry lists and copy them off the PC for processing.

Please advise if anything is unclear or confusing or missed out completely. Or if you have any questions, email nats@mfz.org
